Dear Sir,

To begin with, I am with you all the way concerning your book.

I saw you on "Contact" and tried desperately to get a chance to talk to you, but, alas it was impossible to get through the busy lines.

My question was and is, "what can I do about this?"

I am young (19) and the whole mystery of the Kennedy assassination has me very confused. It scares me. What is to become of us in ten or twenty years if we are at such a point now as to "hide" the Truth?

Can anything be done?

You have probably heard of another book, "Rush to Judgement". This book states many facts which conflict with the Warren

report.

Of course, you must receive much mail and you must be very busy. If you do get a chance, however, I would be very glad to hear from you concerning this.
